- B-BBEE rating improved to Level 3
- rPET project and phase 1 of the Felixton mill rebuild commissioned on time and within budget

COMPANY PROFILE

Mpact is one of the leading paper and plastics packaging businesses in southern Africa, listed on the JSE's Main Board in the Industrial - Paper and Packaging sector. The Group has a leading market position in southern Africa in recovered paper collection, corrugated packaging, recycled-based cartonboard and containerboard, polyethylene-terephthalate (PET) preforms, styrene trays and plastic jumbo bins. These leading market positions allow Mpact to meet the increasing requirements of its customers and to achieve economies of scale and cost effectiveness at the various operations.

Mpact has 33 operating sites, of which 23 are manufacturing operations, in South Africa, Namibia, Mozambique, Botswana and Zimbabwe. South African-based customers accounted for approximately 90% of Mpact's sales for the current year, with the balance of sales predominantly to customers in the rest of Africa.

As at 31 December 2015 Mpact employed 4,467 people.

GROUP PERFORMANCE

The Group's results for the year ended 31 December 2015 reflect a strong improvement in the Plastics business and a lower effective tax rate. The improvement in Plastics was on the back of good volume growth, cost containment and the restructure of the FMCG business in 2014. The Paper business delivered steady growth underpinned by increased sales to the fruit sector.

Revenue was 10.8% higher than the comparable prior year period at R9.5 billion, attributable to higher average selling prices, organic volume growth of 2.1% and acquisitions which contributed 1.2%. Underlying operating profit increased by 21.0% to R909 million with the operating profit margin increasing to 9.5% from 8.7% in the prior year.

ROCE for the year improved to 18.9% (December 2014: 18.1%)

Underlying earnings per share increased by 36.3% to 366.9 cents (December 2014: 269.2 cents) with the effective tax rate decreasing to 21.8% (December 2014: 28.4%)

On 1 April 2015 Mpact announced the successful implementation of a Broad-Based Black Economic Empowerment ("B-BBEE") transaction. This contributed to an improved B-BBEE rating to Level 3 from Level 5.

The Group's two major capital investment projects progressed well during the year. Phase 1 of the R765 million Felixton Mill upgrade was commissioned on time and within budget with the mill's subsequent performance reflecting the expected benefits. Phase 2 of the project is on schedule to be completed during 2017.

The new R350 million recycled polyethylene-terephthalate (rPET) operation, which forms part of our recently established Mpact Polymers business, was commissioned on time and within budget. In September 2015 having complied with the relevant EU regulations, Mpact's rPET, branded Savuka PET, was formally declared safe for use in the packaging of food and beverage products. Approval from The Coca-Cola Company for use of Savuka PET in the bottling of their brands was obtained on 10 February 2016.

Paper business

In the Paper business revenue for the year was up 11.8% to R7.0 billion. Acquisitions and organic volume growth increased revenue by 1.7% and 0.9% respectively, with higher sales volumes to the fruit sector partially offset by lower external sales of recovered fibre and exports. Underlying operating profit increased by 13.0% to R803 million due to higher selling prices and a favourable product mix, the benefits of which were reduced by increased raw material costs. The underlying operating margin improved marginally from 11.3% to 11.4%.

Plastics business

Revenue in the Plastics business increased by 8.1% to R2.5 billion with volume growth of 12.1%, mainly attributable to fruit packaging, bulk bins and beverage preforms, offset by lower average selling prices which reflected lower polymer prices. The FMCG business delivered a much improved result following its restructuring in 2014. Underlying operating profit increased by 50.8% to R199 million and the underlying operating profit margin improved to 7.9% from 5.6% in the comparable prior year period.

Net finance costs

Net finance costs increased by 9.1% to R132 million (December 2014: R121 million) as a result of higher interest rates and increased average net debt over the year. Net finance costs were reduced by capitalised interest of R27 million on major projects.

Tax

The effective tax rate for the period was 21.8%. (December 2014: 28.4%). The lower effective tax rate is due mainly to the recognition of deferred tax on previously unrecognised tax losses.

Earnings per share
Underlying earnings per share increased by 36.3% to 366.9 cents (December 2014: 269.2 cents).

Net debt
Net debt at 31 December 2015 was R1,592 million (December 2014: R1,303 million), an increase of 22.2% from the prior year. Gearing at year-end was 30.2% (December 2014: 29.0%). During the year Mpact fixed the interest rate on R700 million of its debt facilities comprising R500 million at 9.49% for 5 years and R200 million at 9.15% for 8 years.

OUTLOOK
It remains difficult to predict developments in the South African economy in the year ahead, suffice to say that we share the belief that the economic turbulence in which the Group operates, possibly exacerbated by the effects of drought, will not abate.

As noted in the interim results, the change of ownership of a number of paper mills and recycling businesses in South Africa has changed the competitive landscape. While the short term consequences of these changes are uncertain, we remain confident that interventions such as the Felixton Mill upgrade, the Mpact Polymers rPET project and investments in the recycling and corrugated businesses will advance Mpact's growth prospects.

Notwithstanding the current headwinds, our strategy addresses sustainable growth initiatives over the long-term and we are confident in the Group's ability to meet the challenges.

SCRIP DISTRIBUTION AND CASH DIVIDEND ALTERNATIVE

1. Introduction

Notice is hereby given that the Board has declared a final distribution for the year ended 31 December 2015, by way of the issue of fully-paid Mpact ordinary shares of no par value each ("the Scrip Distribution") as a scrip distribution payable to ordinary shareholders ("Shareholders") recorded in the register of the Company at the close of business on the Record Date, being Friday, 15 April 2016.

Shareholders will be entitled, in respect of all or part of their shareholding, to elect to receive a gross cash dividend of 80 cents per ordinary share in lieu of the Scrip Distribution, which will be paid only to those Shareholders who elect to receive the cash dividend, in respect of all or part of their shareholding, on or before 12h00 on Friday, 15 April 2016 ("the Cash Dividend").

The Cash Dividend has been declared from income reserves. A dividend withholding tax of 15% will be applicable to all Shareholders not exempt therefrom, after deduction of which the net Cash Dividend is 68 cents per Mpact ordinary share.

The new ordinary shares will, pursuant to the Scrip Distribution, be settled by way of capitalisation of the Company's distributable retained profits.

The Company's total number of issued ordinary shares as at 1 March 2016 is 165,958,619. Mpact's income tax reference number is 9003862175.

2. Terms of the Scrip Distribution

The number of Scrip Distribution shares to which each of the Shareholders will become entitled pursuant to the Scrip Distribution (to the extent that such Shareholders have not elected to receive the Cash Dividend) will be determined by reference to such Shareholder's ordinary shareholding in Mpact (at the close of business on the Record Date, being Friday, 15 April 2016 in relation to the ratio that 80 cents bears to the volume weighted average price ("VWAP") of an ordinary Mpact share traded on the JSE during the 30-day trading period ending on Thursday, 31 March 2016. Details of the ratio will be announced on the Stock Exchange News Service ("SENS") of the JSE in accordance with the timetable below.

Where the application of this ratio gives rise to a fraction of an ordinary share, the number of shares will be rounded up to the nearest whole number, if the fraction is 0.5 or more, and rounded down to the nearest whole number, if the fraction is less than 0.5.

3. Circular and salient dates

A circular providing shareholders with full information on the Scrip Distribution and the Cash Dividend alternative, including a Form of Election to elect to receive the Cash Dividend alternative will be posted to Shareholders on or about Wednesday, 16 March 2016. The salient dates of events thereafter are as follows:

6. FAIR VALUE ESTIMATION

The fair value of financial instruments that are not traded in an active market (for example, over-the-counter derivatives) are determined using standard valuation techniques. These valuation techniques maximise the use of observable market data were available and rely as little as possible on Group specific estimates.

When measuring the fair value of an asset or a liability, the Group uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The significant inputs required to fair value all of the Group's financial instruments are observable.

Specific valuation methodologies used to value financial instruments include:

- the fair values of interest rate swaps and foreign exchange contracts are calculated as the present value of expected future cash flows based on observable yield curves and exchange rates;
- other techniques, including discounted cash flow analysis, are used to determine the fair values of other financial instruments.
